Re: Increase in Payment Percentage

Dear Claimants' Counsel

The UNR Asbestos-Disease Claims Trust ("UNR Trust") hereby gives notice that it has increased the Payment Percentage effective April 1, 2010. The UNR Trust received approximately \$900,000 as a result of litigation maintained by the bankrupt estate of ROHN Industries, Inc. With the addition of these funds, the UNR Trust was able to increase the Payment Percentage to 1.24%.

The increased Payment Percentage shall apply to all claims payments made after April 1, 2010. The increase also applies to those claims that have previously elected the two-payment plan and have received only the first payment; the second payment for these claims will be paid when due and the amount of that payment will be adjusted to reflect a total payment of 1.24% of the Gross Settlement Value as shown on the offer and release, unless any subsequent change to the payment percentage is required before the second payment due date, in which case the total payment will reflect the payment percentage in effect at the time of the second payment.

For those claims where releases have been issued based on the previous Payment Percentage, it will not be necessary for those releases to be reissued. Once such an offer is accepted and a signed release is returned to the Trust, the amount will be adjusted to reflect the new Payment Percentage.

This change does not represent a new policy or forecast. It simply distributes an unexpected payment to the Trust using policies and a forecast previously in place. The Payment Percentage will continue to be reviewed under the normal timetable.

As a reminder, the statute of limitations for malignant claims is measured from the date of diagnosis of the malignant disease and not from the earliest date of diagnosis of any [required] underlying disease. ***However, a claim is only considered timely filed if received with the non-refundable filing fee; if a claim is received without the fee, the statute will continue to run until the fee is received.***

All other claim processing policies and procedures of the Trust remain unchanged.

Should you have any questions or concerns, please do not hesitate to contact me.

Yours very truly,
